

Lifechangers: Summer 2007 is chance for sold-out students in Dallas Baptist churches to serve sacrificially and stretch the boundaries of their love for God, His people and His city.

A team of six students and one leader will live, work, and serve alongside Dallas urban churches during the months of June and July. They will be trained to lead evangelistic soccer camps and Kids' Clubs but will plug into the lives of these churches in a variety of ways, 24/7.

Students will live in Christian community at Cornerstone Care Center in the inner-city Fair Park area. They will serve Cornerstone as well as other urban churches as a group for some ministries and in teams of two for others. They'll plug into not just the mission activities but the worship and fellowship of their host churches as well. They will likely tutor, build, nurture, repair, encourage, assist, organize, teach, learn from, listen to, and pray with all kinds of people...all in the name of Jesus.

In addition, the students will participate in intensive peer discipleship/accountability, mission-specific Bible study, and exposure to church and lay people who model innovative ways God uses lives totally yielded to Him.

Our prayer? That these inner city churches and neighborhoods as well as the students will be forever changed.

Applications and details (including information about the weekly stipend) will be sent to students based on their **pastor's or youth minister's nomination.**
